

**HOLY APOSTLES GREEK ORTHODOX CHURCH
CAPITAL CAMPAIGN INITIATIVE
LOCATION & OUR PARISH POPULATION ANALYSIS**

METHODOLOGY & APPROACH

To target the **best area** for our *permanent church complex* that will serve our core stewards and fill a large **geographic void** in the Washington DC metropolitan area, we analyzed our growing church population to see where our *stewards* live and the **distance** to our *current temporary site* and *other Greek Orthodox churches*.

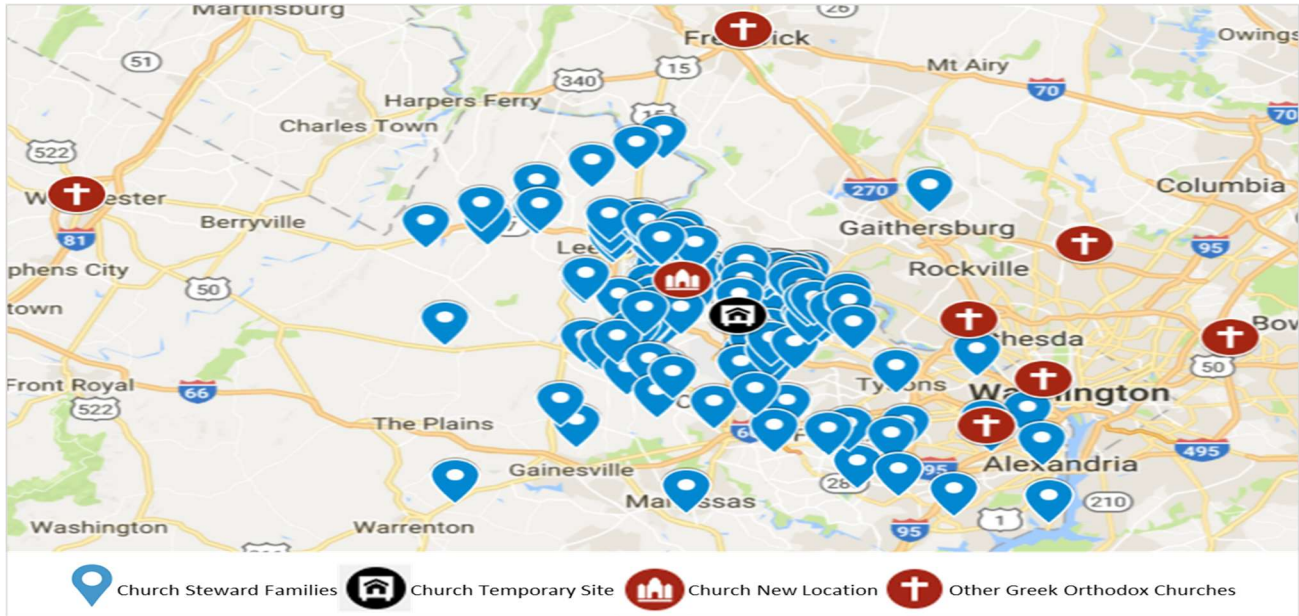

fig. 1: Analysis showing our Holy Apostles Church Steward Families, the location of our current Temporary Site, our proposed New Location, and other Greek Orthodox Churches in the target area

fig. 2: Analysis showing our Holy Apostles Church Steward Families geographic details

KEY FINDINGS

- **2 of every 3 steward families** live **within 15 miles** of the *proposed new church location* (fig. 2)
 - **Over 20%** live in the *same zip code*
- The **top 6 towns** represent nearly **70%** of the *steward families* population
- Loudoun County is the **fastest growing** in Virginia, **adding 30 residents per day**
 - We have the potential to *more than double* the number of *steward families* over the next **10 years** with a new **permanent church complex**

- With **over a 65-mile** distance between 2 existing Greek Orthodox churches in *Falls Church* and *Winchester* in the **heavily populated Route 7 corridor**, our *proposed permanent church complex location* is almost exactly equidistant to both, so it will fill a significant geographic void (fig. 1)

CONCLUSION

Less than **10 minutes** from our *current temporary site*, the proposed **permanent church complex** is the **perfect location** to serve our *steward families*, is in one of the **fastest growing areas**, and fills a significant Greek Orthodox church **geographic void** in the nation's 6th largest metropolitan area.
